INVITES YOU TO PARTICIPATE IN

10TH INTERNATIONAL CONFERENCE ON POLYMERIC MATERIALS IN AUTOMOTIVE PMA 2025

AND

THE 26TH SLOVAK RUBBER CONFERENCE SRC 2025

The **PMA 2025 & SRC 2025** conference has been organized regularly since 2005 as a meeting of plastic and rubber workers with wide international participation. The next year will also be dedicated to the 80th anniversary of the beginning of the teaching of polymer technology at STU in Bratislava.

SCOPE Plastics and rubber-based materials for application in automotive industry

- Plastics and Rubber Materials for Exterior and Interior
- New Polymers, Composites and Hybrid Materials
- Thermoplastic Elastomers
- Additives and Modifiers for Plastics and Rubbers
- Processing - 3D-printing, Mixing, Extrusion, Calendering, Injection Moulding, 2K-Systems
- Sustainability, Circular economy, Recycling, CO₂-Footprint, Drinking water/Food contact, Emissions
- Materials and Procedures for Tire Technology and Rubber Goods
- Modelling of materials, Product design, Prediction
- Advances in Testing of Polymeric Materials
- Polymers for Automotive Batteries
